

THOMPSON

ARCHITECTURAL METAL & FABRIC STRUCTURES

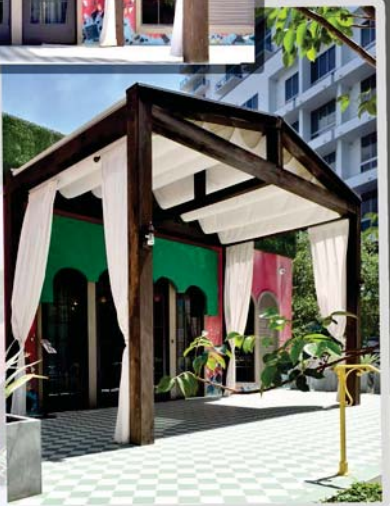

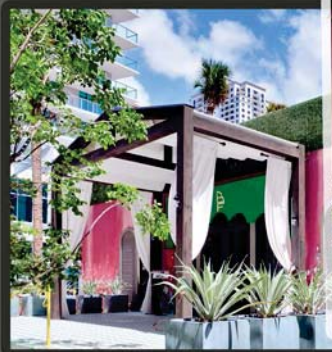

DIVISION OF
AMERICAN MADE
AWNINGS OF HOLLYWOOD

We design, manufacture and install truly innovative outdoor solutions, serving the needs of the restaurant and hospitality industry. Whether your problem is rain, wind, sun, heat or cold, we can create and install a design that will maximize the use of your valuable outdoor space. We make ordinary environments, extraordinary.

This fabric covered wood framed structure has a swag fabric underliner and flowing curtains creating an elegant and welcoming entryway

WALKWAY COVER

This fabric covered trellis features a wood grain powder coated finish applied to the aluminum framing.

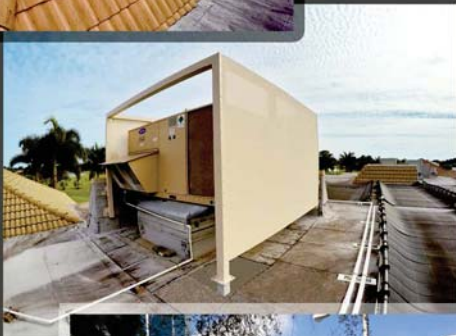

A unique structural umbrella was designed to provide shelter at the valet station as well as the entrance to the covered walkway leading to the building

MECHANICAL EQUIPMENT SCREENS

Designed to obscure the view of unsightly utility equipment, these screens can be fabricated using fabric, louvered metal or a variety of architectural metal panels

REFUSE AREA ENCLOSURES

Keep your refuse containers and dumpsters out of sight with a swinging or sliding gate enclosure. Available in fabric or metal designs.

Electrically Operated Louver
Roof can Adjust to any Position
