

LAC 650[®] SL

SAINT CLAIR TEXTILES

Roll Width: 118 inches, 58.5 inches • Weight: 20oz/yard

Equipped with Lowick System, LAC 650 SL awning fabric brings a long lifespan. The durable fabric is composed of PVC-coated polyester. It deters water retention and resists soiling, UV damage, mildew, and fading. The easy-maintenance awning fabric features a Cleangard[®] finish. The smooth coat combats severe weather and aids in routine care.

Use in window awnings, patio awnings, pergolas, shade sails, marquees, and outdoor canopy structures where a stronger, heavier fabric is required. LAC 650 SL is flexible yet rugged and works well for new projects or awning fabric replacement.

LAC 650 SL is REACH compliant and weldable.

Warranty: 10 years.

FR Standards Met: NFPA 701-10, Method 2; California Title 19

Colors are representative only. Small variations in shade should be anticipated and are with commercial tolerances.

**Fabrics in 118-inch widths are only available in full rolls of 32.8 yards.*
